LUONG DO MINH HUNG

Frontend Engineer (Flutter) / Mobile Architect

minhhung2556@gmail.com · (+84) 775005110 · Ho Chi Minh City, Vietnam

PROFESSIONAL SUMMARY

Mobile Architect and Senior Frontend Engineer with 13+ years building high-performance consumer mobile applications, specializing in Flutter & Dart UI architecture, fluid interaction design, and rendering pipeline optimization. Proven track record delivering pixel-accurate interfaces, complex transitions, and scalable component systems for multi-country super-apps; shipped Vietnam's first Flutter super-app and led native-to-Flutter migrations. Expert in Dart command-line tooling, design-to-code automation, and optimizing app rendering performance across devices.

CORE COMPETENCIES

Flutter & Dart Architecture · Flutter Rendering Pipeline & UI Performance · Fluid Interactions & Custom Animations · Design-to-Code Automation (Figma & OpenAPI to Dart) · Native-to-Flutter Migration · Scalable Component Systems · Super App & Modular Platforms · CI/CD & Release Management · Technical Governance & Engineering Standards

EXPERIENCE

EmbedIT Vietnam, Ho Chi Minh City — April 2022 – Present

Mobile Technical Lead / Senior Software Engineer

- Lead Digital Payment & Transaction feature delivery in the Home Credit application, building fluid, high-performance Flutter interfaces for Vietnam and the Philippines.
- Architected and refined Figma & OpenAPI specifications for automated Dart code generation, establishing seamless design-to-code Flutter pipelines via REST interfaces.
- Programmed custom Dart command-line tooling to automatically generate clean, scalable Flutter project structures from UML Class and Use Case diagrams.
- Evaluated Super App Platform architecture and modular UI components for the Global Mobile Application program, ensuring fast frame rates and memory efficiency.
- Serve on Governance for mobile development standards, release pipelines, and App Store release management across cross-functional engineering teams.
- Demonstrated automated security scanning and reporting using Google Open Source Vulnerability Scanner integrated into Azure CI/CD pipelines.

Home Credit Vietnam, Ho Chi Minh City — December 2020 – April 2022

Mobile Technical Lead

- Architected and delivered core Flutter UI features across Vietnam, Philippines, and Indonesia: digital top-up, bill payment, QR payment, and PayLater flows with meticulous visual accuracy.
- Migrated legacy Android and iOS native applications into unified Flutter plugins, integrating them into the Global Mobile Application Flutter codebase.
- Optimized mobile app architecture and resource loading, reducing overall application package size by 20–50% while improving rendering performance.
- Designed country-specific modular UI architecture to scale feature customization seamlessly across Vietnam, Philippines, Indonesia, and India.
- Established mobile development guidelines and trained native iOS/Android developers transitioning to Flutter.

Sendo.vn, Ho Chi Minh City — May 2018 – December 2020

Mobile Team Leader (Technical)

- Led mobile engineering for Sendo e-commerce platform and drove the complete native-to-Flutter technology transition.
- Shipped Vietnam's first Flutter super-app, featuring custom interactive UI components for SenPay wallet, flash sales, event templates, mini-games, and travel ticketing.
- Resolved Flutter rendering pipeline bottlenecks, layout shifts, and platform channel blockers hands-on to achieve 60 FPS fluid interactions.
- Scaled mobile organization to 10+ cross-functional teams with up to 10 members each; established engineering standards and coached developers.

SenPay.vn, Ho Chi Minh City — May 2017 – May 2018

Android Team Leader

- Architected and built SenPay e-wallet and payment gateway Android application from scratch, delivering smooth transaction flows and secure digital payment features.

Mobivi – iCareBenefits & Earlier Roles, Ho Chi Minh City June 2012 – May 2017

Mobile App Developer / Team Leader

- Architected and published 6+ native Android apps from scratch for e-commerce, logistics, and field operations.
- Developed online game engines and platform features using J2ME and LibGDX for a 30M user gaming network; awarded Best Employee (2014).

SELECTED CREDENTIALS AND SPEAKING

- **High-Impact IT Leader**: CIO / CTO Leadership Program (2023)
- **Speaker & Mentor**: Home Credit Online TechTalk (2021) · Google DevFest Ho Chi Minh City Flutter Training (2021)
- **Writer**: Technical articles on Medium (https://romanticdeveloper.medium.com/)

REFERENCE LINKS

- **Products**: Home Credit App (https://www.homecredit.vn) · Sendo App (https://www.sendo.vn) · SenPay (https://senpay.vn)
- **Profiles**: Personal Website (https://romanticdeveloper.com) · LinkedIn (https://linkedin.com/in/hungldm) · GitHub (https://github.com/minhhung2556) · Pub.dev (https://pub.dev/publishers/romanticdeveloper.com/packages)

TECHNICAL SKILLS

- **Mobile & Frontend**: Flutter, Dart, Flutter rendering pipeline, custom animations, Android, iOS, ReactJS, Next.js, React Native
- **Architecture & Design-to-Code**: Scalable UI architecture, Figma-to-Flutter code gen, Dart CLI tooling, OpenAPI, Modular platforms
- **Backend & Tooling**: FastAPI, Python, Spring Boot, Java, Node.js, REST APIs, Git, Azure Pipelines, App Store / Google Play operations

EDUCATION

Tra Vinh University · *Bachelor of Information Technology (GPA 3.7/4.0)* 2024 – 2026

Open University Ho Chi Minh City · *Associate's Degree, Computer Science* 2008 – 2011
